Railroad Presidents Tell of Huge Expenses and of Laying Off Employes.

Washington, D. C., April 1 .- A decision by the interstate commerce commission on the freight case increases asked by the eastern railroads is expected much earlier than had been planned. It may be handed down within a month.

Recent developments have impelled the commission to put aside collateral issues and extraneous questions and devote practically its entire time to the rate question.

Such questions as spatting car charges, free service of various kinds and similar propositions that have been considered with the application of the roads, it was understood today, will not be permitted to interfere with the fundamental proposition of an in-

crease.

It is the purpose of the commission to extendite in every possible way final disposition of the case and to that end continuous hearings will be held until all the testimony shall have been concluded.

Briefs or Arguments.

It is expected that it will be submitted either on briefs, which are now practically prepared and without arguments, or on briefs with short arguments.

ments.

It is believed not to be unlikely that the commission Itself may make announcement of its purpose to facilitate the disposition of the case.

The method of procedure outlined is said to be most unusual, According to information obtained today, it is the purpose of the commission to postpose, for the present, consideration of the car spotting charge, free services rendered by railroads to shippers and similar side issues of the rate advance case, but not to abandon them.

Villa Sends Treeps Away.

Then, along about relighing came a telegram to the effect that Villa sent the brigades of Maclovio Herrera and Tomas Urbina east of Torreon to intercept federal reinforcements. Inasmuch as Villa had drawn in all his troops from surrounding sections for the combined attack upon Torreon, it was argued that he would hardly be sending any of his forces away from the place unless he was in possession. So there was much inclination to credit Villa with being in the town, but absolutely no confirmation from rebel sources.

I know that Cardul cured me and I believe it will de the same for other women,

Sometime ago, I could hardly stand on my feet, and I had given up ever having good health. After using two botles of Cardui I could tell it was helping me, and I continued taking it for awhile. I soon felt as well as I ever did, and could do all of my work.

I shall always praise this great medicine to every suffering woman. I think there is no other half so good."

Aguirre ordered the same instructions Aguirre ordered the same instructions transmitted to other rebel officials in Sonora. The principal reason for the order is said to be the issuance by counterfeiters of bogus "Villa" bills amounting to 1,900,000 pesos.

Although without official advices, Sonora people are being assured that "Villa currency" now in their hands will be redeemed by a new "Constitutionalist" issue, which is expected here from New York within two weeks.

Although the huying power of the present issue is said to be as great as ever in insurgent territory, it depreciated along the border, bringing only seven to 12 cents on the peso. It is believed this may be another reason for prohibiting its further circulation.
